

JOHN BASS

Frontend Software Engineer | React | Next.js | TypeScript

Coyle, Oklahoma | babyboy198331@gmail.com | github.com/babyboy198331-coder | linkedin.com/in/john-b-1182183ba

PROFESSIONAL SUMMARY

Frontend Software Engineer with hands-on experience building responsive, accessible, production-grade web applications using React, Next.js, and TypeScript (90+ Lighthouse performance scores). Proven ability to integrate REST APIs, manage application state, and implement authentication and payment flows across five deployed projects. Brings 7+ years of leadership and operations experience — team training, process management, and deadline-driven execution — to cross-functional engineering teams.

CORE COMPETENCIES

React.js • Next.js • TypeScript • JavaScript (ES6+) • Redux • REST API Integration • State Management • Authentication • UI Development • Component Libraries • Responsive Web Design • Accessibility (WCAG) • Performance Optimization • Git/GitHub Version Control • CI/CD Pipelines • GitHub Actions • CI/CD Deployment (Vercel) • Cross-Functional Collaboration • Team Leadership

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Redux, Tailwind CSS, Vite, React Router, Axios

Tools & Platforms: Git, GitHub, GitHub Actions, CI/CD Pipelines, Vercel, Firebase, Stripe, REST APIs, EmailJS

Practices: UI Development, Component Libraries, Responsive Design, API Integration, Debugging, Accessibility (WCAG), Performance Optimization

PROFESSIONAL EXPERIENCE

Software Development Intern — Skintric

2026

- Engineered an AI-powered skin-analysis web application from a pixel-perfect Figma specification using React and Vite
- Built a live camera-capture pipeline (getUserMedia) with base64 image upload to an AI REST API for real-time analysis
- Developed an interactive demographics dashboard with editable, real-time confidence scores, fully responsive across desktop, tablet, and mobile devices
- Built reusable React component libraries to accelerate UI development across the dashboard
- Collaborated in a Git/GitHub-based workflow and deployed production builds to Vercel via a CI/CD pipeline

Shop Manager — Shines Kwik Lube

2018 – 2025

- Led daily operations, inventory control, and customer service for a high-volume service business over 7 years
- Recruited, trained, and supervised staff, establishing standards that maintained consistent quality and turnaround times
- Managed scheduling, vendor relationships, and process improvements in a fast-paced, deadline-driven environment

Sandblaster & Monument Installer — Nelson Monument

2025 – 2026

- Performed precision engraving and on-site installation work, maintaining strict quality control under tight deadlines

Maintenance Technician — OSU Housing

Contract

- Completed structural, plumbing, electrical, and cosmetic repairs across residential facilities, ensuring timely turnaround for occupancy deadlines

PROJECTS

OfferBound — *React, Vite, Firebase Auth, Cloud Firestore*. End-to-end job-application tracker with Google sign-in, per-user Firestore data, a stats dashboard, and automated follow-up reminders. Live at offerbound.vercel.app

Summarist — *Next.js, TypeScript, Redux, Firebase, Stripe*. Subscription reading application with authentication, global state management, and integrated payment processing

Cinegalaxy — *Next.js, TypeScript, Tailwind CSS*. Responsive movie-browsing application with a production Vercel deployment workflow

NFT Marketplace — *React, Firebase, Axios, React Router*. Marketplace application with client-side routing, reusable component architecture, and API-driven data

AI Chat Interface — *Next.js, TypeScript, Tailwind CSS*. Deployed AI chat interface clone built with modern React patterns

EDUCATION

Frontend Simplified — Frontend Development Program *2026 – Present*

- React, Next.js, TypeScript, REST APIs, version control, and deployment workflows

Redmond High School — Diploma (2001)
