

JOHN BASS

Frontend Software Engineer | React | Next.js | TypeScript

Coyle, Oklahoma | babyboy198331@gmail.com | github.com/babyboy198331-coder | linkedin.com/in/john-b-1182183ba

PROFESSIONAL SUMMARY

Frontend Software Engineer specializing in React, Next.js, and TypeScript, building responsive, accessible, production-grade web applications with 90+ Lighthouse performance scores. Experienced in REST API integration, state management, authentication, payment processing, and component testing with React Testing Library. Brings 7+ years of team leadership and cross-functional communication to engineering collaboration.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Redux, Tailwind CSS, Vite, React Router, Axios

Testing & Tools: React Testing Library, Git, GitHub, GitHub Actions, CI/CD Pipelines, Vercel, Firebase, Stripe, REST APIs

Professional Skills: Team Leadership, Cross-Functional Communication, Staff Training, Process Improvement, Accessibility (WCAG), Performance Optimization

PROFESSIONAL EXPERIENCE

Software Development Intern — Skinstric

2026

- Architected an AI-powered skin-analysis web application from a pixel-perfect Figma specification using React and Vite
- Implemented a live camera-capture pipeline (getUserMedia) with base64 image upload to an AI REST API for real-time analysis
- Built a fully responsive, interactive demographics dashboard with editable, real-time confidence scores across desktop, tablet, and mobile
- Designed reusable React component libraries to accelerate UI development, and partnered with the team in a Git/GitHub workflow to deploy production builds to Vercel via CI/CD

Shop Manager — Shines Kwik Lube

2018 – 2025

- Directed daily operations, inventory control, and customer service for a high-volume automotive service business over 7 years
- Recruited, trained, and supervised staff, setting standards that improved consistency in service quality and turnaround time
- Streamlined scheduling, vendor relationships, and operating processes in a fast-paced, deadline-driven environment

ADDITIONAL EXPERIENCE

Sandblaster & Monument Installer — Nelson Monument (2025–2026): Performed precision engraving and on-site installation under strict quality and deadline requirements.

Maintenance Technician — OSU Housing (Contract): Executed structural, plumbing, electrical, and cosmetic repairs across residential facilities to meet occupancy deadlines.

PROJECTS

OfferBound — Built an end-to-end job-application tracker (React, Vite, Firebase Auth, Cloud Firestore) with Google sign-in, a personal stats dashboard, and automated follow-up reminders; wrote component tests with React Testing Library. Live at offerbound.vercel.app

Summarist — Architected a subscription reading application (Next.js, TypeScript, Redux, Firebase, Stripe), implementing authentication, global state management, and end-to-end payment processing.

Cinegalaxy — Built a responsive movie-browsing application (Next.js, TypeScript, Tailwind CSS) with a production Vercel deployment pipeline.

NFT Marketplace — Developed a marketplace application (React, Firebase, Axios, React Router) with client-side routing and a reusable component architecture.

EDUCATION

Frontend Development Program — Frontend Simplified (2026–Present): React, Next.js, TypeScript, REST APIs, version control, deployment workflows

Diploma — Redmond High School (2001)
