

John Bass

Full-Stack Software Engineer — React · Next.js · TypeScript

Coyle, Oklahoma • bassjohn159@yahoo.com • github.com/babyboy198331-coder • linkedin.com/in/john-b-1182183ba

PROFESSIONAL SUMMARY

Full-Stack Software Engineer building responsive, pixel-perfect web applications with React, Next.js, TypeScript, and modern JavaScript, backed by Node.js/Express, PostgreSQL, and Docker on the backend. Experienced in REST API integration, state management, authentication, and payment flows, with deployed production projects and a focus on accessibility and performance (90+ Lighthouse scores). Brings seven years of management experience and a disciplined, deadline-driven work ethic to every build.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Redux Toolkit, Tailwind CSS, Vite

Backend & Data: Node.js, Express, Prisma, PostgreSQL, JWT/bcrypt auth, REST APIs

Tools & Platforms: Git, GitHub, Docker, Vercel, Railway, Render, Firebase, Stripe

Practices: Responsive design, API integration, debugging, accessibility (WCAG), performance optimization

EXPERIENCE

Frontend Engineering Intern — Figma to React Implementation, Skinstric (2026)

- Built an AI skin-analysis platform to a pixel-perfect Figma spec using React and Vite
- Integrated live camera capture (getUserMedia) and base64 image upload to an AI REST API
- Developed an interactive demographics dashboard with editable confidence scores, fully responsive across desktop, tablet, and mobile
- Collaborated through Git/GitHub workflows and deployed to Vercel

PROJECTS

CRM AI — *Next.js, Node.js/Express, Prisma, PostgreSQL, Docker, Railway, OpenAI API*. Full-stack CRM with role-based permissions and AI features (meeting summaries, follow-up drafts, Q&A chatbot); containerized with Docker, deployed as three services on Railway

OfferBound — *React, Vite, Firebase Auth, Cloud Firestore*. Job-application tracker built end to end — Google sign-in, per-user Firestore data, stats dashboard, and a Resume Scanner with ATS match scoring. Live at offerbound.vercel.app

ai-chat-interface — *Next.js, TypeScript, Tailwind CSS, OpenRouter API*. Multi-model chat interface with live token streaming, markdown rendering, and persistent conversations across DeepSeek, Llama, and Gemma

Mini Expense Tracker — *Express, PostgreSQL, JWT, bcrypt*. Full-stack expense tracker built to go deep on auth — bcrypt hashing, rotating JWT access/refresh tokens, and a one-time-token reset flow. Live at babyboy198331-coder.github.io/miniexpensetracker

ADDITIONAL EXPERIENCE

Shop Manager — Shines Kwik Lube (2018 – 2025)

- Managed daily operations, inventory, and customer service; trained and supervised staff

EDUCATION

Frontend Simplified — Frontend Development Program (2026 – Present)

- React, Next.js, TypeScript, REST APIs, version control, and deployment workflows

Redmond High School — Diploma (2001)
